You can find the graphics card installed in your system as follows:

### Windows:

1. Click on the "Start button" or the "Windows icon" and enter "dxdiag" in the search field.
2. Confirm the entry with [Enter].
3. You are now in the DirectX diagnostic program. Click on the "Display" tab at the top.
4. Your exact graphics card is displayed next to the "Name" item.

### Mac:

1. Click on the apple symbol at the top left of the Mac screen
2. Select About this Mac. ...
3. If you want to know more, click on System Report.
4. Choose the entry Graphics/Displays and you will see the name of the installed graphic card in the right part of the window
